FloatFit Class

Tuesdays & Thursdays

9 - 10 a.m. • Purdy Pool

This is a fun, high-intensity circuit training drill, performed on an AquaBase floating water mattress in a swimming pool, FloatFit gives a full body workout. The need to balance the AquaBase will teach you how to focus on your posture, and strengthen your core while concentrating on exercises such as burpees, planks, squats, mountain climbers and more! The movement created by the water requires both core muscles and concentration working together to balance on the AquaBase. Intricate stabilizing muscles work overtime helping to prevent dislocation and adding strength to joints. These muscle fibers often get overlooked in other workouts.

Less impact on the joints!

For those with knee or joint difficulties, FloatFit is a low-impact workout, with a mixture of core and yoga inspired exercises to suit all abilities. Eliminating the heavy impact on hard surfaces will assist your joints in every way to reach fitness levels other workouts can fail you on.
