How to Become a Professional Family Child Care Provider

NAVY CYP

Child and Youth Programs

About Family Child Care (FCC)

Family Child Care (FCC) assist parents by providing child care services to support operational readiness, mission accomplishment and retention

Family Child Care (FCC) Homes are an alternative to center-based care and often preferred by families because of the small group sizes, the home-like atmosphere and the flexible hours of operation that other centers often cannot accomodate. Anyone who lives in military housing and wishes to provide child care on a regular basis for more than ten hours a week must be certified by the Navy as a FCC Provider.

Types of Family Child Care Programs

Multi-Age Homes
Serve no more than six children at one time including the provider's own children under the age of eight years old. In a multi-age group, no more than two children under the age of two (whether they are the patron's or the provider's) may be cared for in one home.

Infant/Pre-Toddler Homes
Provider may care for infants six weeks old to 24 months of age. There shall only be one child under two months of age. Group size shall never exceed three children.

Before & After School Homes
Provides care for children five to 12 years of age. If all children in care are older than five years of age (including the provider's own) the maximum group size shall never exceed eight children.

Extended Hours Homes
Serve parents who require routine evening care, work unusual / long hours and have mission related child care needs not to exceed 72 consecutive hours.

Special Needs Homes
Offer appropriatte care to one or more children with identified needs.
