FloatFit Class
Tuesdays and Thursdays
9:15 - 9:45 a.m. • Purdy Gym Pool

A fun and high-intensity circuit training drill, performed on an AquaBase floating water mattress in a swimming pool. FloatFit gives a full body workout. The need to stay afloat will teach you how to focus on your posture, and strengthen your core while concentrating on exercises such as burpees, planks, squats, mountain climbers and more!

The movement created by the water requires both the core and concentration to work together to balance on the AquaBase. Intricate stabilizing muscles work overtime helping to prevent dislocation and adding strength to joints. These muscle fibers often go ‘unworked’ in other workouts.

Less impact on the joints!
For those with knee or joint difficulties, FloatFit is a low-impact workout, with a mixture of core and yoga inspired exercises to suit all abilities. Eliminating the heavy impact on hard surfaces will assist your joints in every way to reach fitness levels other workouts can fail you on.

8 spots available per class
$3 per class

Child Development Centers
The Yokosuka and Ikego Child Development Centers offer child care and developmental activities for children from six weeks – pre-kindergarten.

Child Development Home Program (CDH/FCC)
When you need professional care with the comfort of home, our Child Development Homes (CDH) are here to help. CDH Providers are self-employed individuals operating a Family Child Care (FCC) business in their own home, and often have previous early childhood education experience. They undergo regular inspections, and receive ongoing programming support and extensive training - exactly like our Child Development Centers. They’re here to promote overall social, emotional, cognitive, and physical growth - all while building school readiness skills. For more information or to apply, scan QR code, call 080-4203-5629 or email CFAYCDH@us.navy.mil

Child & Youth Education Services (CYES)
Child & Youth Education Services (CYES) is the education services arm of CYP. The Child & Youth Education Services Officer provides support to all military-connected families in transition with their K-12 education - public, private, parochial, DoDEA, and home school. The SLO helps students and families connect to their command, school, community, and future. Email the SLO at SLOYokosuka@us.navy.mil or scan the QR code.

Child & Youth Behavioral-Military Family Life Counseling (CYB-MFLC)
Child & Youth Behavioral-Military Family Life Counseling (CYB-MFLC) Programs support and augment Child & Youth Programs and DoDEA schools. Counselors provide non-medical support to eligible faculty, staff, parents and children. They may observe, participate and engage in activities with children and youth; coaching, guidance and support to staff and parents, and model behavior management techniques and more! Contact the SLO for more information about the CYB-MFLC Program.
School transition and deployment support is a Navy readiness and retention issue. The Navy benefits from having Sailors who can focus on their duties, whether ashore or deployed.

- Navy families move their children an average of every 2.9 years.
- Children of military personnel attend up to 9 different schools by graduation.
- Military families are reluctant to disrupt high school youth in their senior year.
- Deployments can impact educational outcomes of children.
- Many families decide to “separate geographically” to keep kids in current school.

The School Liaison Officer serves as the liaison between the installation commander, military agencies, and schools by providing assistance in matters pertaining to student education. The School Liaison Officer also implements the Navy’s Strategic Planning for Education Advocacy K-12 recommendations in order to ensure Navy families have access to quality educational opportunities. School Liaison Officers level the playing field for military children by ensuring maximum educational opportunities for success.
