“Navy Awesome Cafe” Strengthens Ties between Japan and United States

MWR Events

Beyond the Gate
Sailors of the Commander, Fleet Activities Yokosuka (CFAY) community were given the opportunity to interact with Japanese citizens and improve upon the already strong ties between the United States and Japan during the Navy Awesome Cafe event yesterday.

The Navy Awesome Cafe is a cultural exchange event hosted by the CFAY Community Relations team to promote ongoing relationship building between CFAY and the Japanese public. A group of 10 sailors assigned to the USS Milius, met with 14 Japanese citizens to have casual conversations about movies, food, and life in Japan.

“We want to share our little part of the community; we love to share our part of Yokosuka,” said Commander, Fleet Activities Capt. Les Sobol, “It strengthens our ties to the alliance, it helps the community understand us, and we learn a lot from them as well.”

The Navy Awesome Cafe event is supported by CFAY Public Affairs Office employees who provide language assistance, creating a unique opportunity for people who do not speak the same language to communicate in a friendly environment. The event provided both Japanese and American participants the ability to form mutual connections and relationships despite the differences in language and culture.

“The Navy Awesome Cafe plays a vital role in fostering a sense of community among the U.S. Navy personnel and their host nation [Japan],” said Kyoko Sugita, a community relations specialist that helped coordinate the event, “It provides a common space where individuals can interact, build relationships, and strengthen comradery.”

Miyako Sakakibara, one of the event attendees, expressed to the CFAY Community Relations Office through the online application portal, “I would love to meet U.S. military service members who have strong ties with Japan.” The event offers Japanese individuals the chance to have memorable experiences with Sailors, something they typically do not have the opportunity to do. After the event, Miyako said, “I love western movies and am interested in American culture, so I wanted to talk with real American Service members.”

The Navy Awesome Cafe event showcased the power of cultural exchange and the significance of building bridges between nations. By providing a space for sailors from the USS Milius and Japanese citizens to connect on a personal level, the event helps deepen the bond between the United States and Japan by promoting understanding and friendship among individuals from diverse backgrounds. Such initiatives demonstrate the enduring partnership between the two nations and pave the way for ongoing collaboration and mutual respect.

For more than 75 years, CFAY has provided, maintained, and operated base facilities and services in support of the U.S. 7th Fleet’s forward deployed naval forces, tenant commands, and thousands of military and civilian personnel and their families.

One of the Red Cross’s main missions OCONUS is to provide the Emergency Communication Message, AKA “Red Cross Message”. If you or an immediate family member experience an emergency that requires you to request leave from your Command, the Red Cross can verify that emergency as a third party. We will then deliver that information to your command, enabling them to make an informed decision regarding your emergency leave.

Fill out a CONTACT CARD today to ensure your contact information is ready before an emergency arises. Filling out a card in advance helps you and your family save time in a crisis.
